

Cat n' Dog Poo Can Be Green Too!

An Infographic based on Rose Seemann's [book](#):
The Pet Poo Pocket Guide: How to Safely Compost and Recycle Pet Waste

How Much poo do our dog and cats produce? [Lots!](#)
 Take your pet as close to zero waste as possible. **Don't trash poo!** Turn it into fertilizer for plants.
 It's easy and not smelly if you do it right.

You can **recycle pet waste** using any of the processes below.
 Use finished material to enrich soil for house plants or flowers, trees and other landscaping - *not edible crops.*

Dogs only

Dogs and Cats

Cats only

Do you want to treat both pets' waste in the same way?

Yes
 Follow the Cat path only.

No
 Follow the Dog and Cat path separately.

Do you use compostable litter (e.g. pine, not clay)? - OR - Are you willing to switch before implementing?

Yes

No
 1. Trash :-{

Do you live in an apartment OR are without access to a yard/garden you can dig in?
 (Yes=apartment, no yard; No=house/duplex, etc with yard that can be worked)

Yes

1. Bokashi
2. Bokashi lite
3. Flush (sewer only)
4. Trash :-{

No

Yes

1. Bokashi
2. Trash :-{

No

I prefer:
 (A) A little digging/mild-moderate physical strength required for set-up, and easy maintenance. OR
 (B) A little mixing/ongoing maintenance but no digging/strength requirement.

A

1. Burial
2. Biodigestion/ septic bin
3. Composting
4. Mouldering
5. Flush (sewer only)
6. Trash :-{

B

1. Bokashi
2. Bokashi lite
3. Vermiculture
4. Flush (sewer only)
5. Trash :-{

A

1. Burial
2. Composting
3. Mouldering
4. Trash :-{

B

1. Bokashi
2. Vermiculture
3. Trash :-{
